Trespa® TopLab® brings a fusion of artistry and engineering into demanding interior environments, through our compact high-pressure laminate surfaces. Since it was first introduced to market, Trespa® TopLab® BASE has been a champion of reliability. An extremely versatile material with high impact and wear resistance, Trespa® TopLab® BASE is suitable for use in public and recreational spaces subjected to intensive use – creating workspaces for tomorrow.

TRESPA® TOPLAB® BASE

With its hard wearing surface, Trespa® TopLab® BASE is a popular choice for sectors such as education, physical laboratories and institutions, where **durability and wear resistance are paramount.**

With a broad range of colours, patterns, and panel thicknesses, TopLab® BASE can be used for a full fit-out – from worktops to lockers, cabinetry, and partitions, ensure peak performance has been carried **across your entire workspace.**

A traditional approach

Trespa® TopLab® BASE is a melamine-faced panel, manufactured under high temperature and pressure to create a homogeneous panel with an integral decorative surface. The result is a **high-performing, durable product that is easy to maintain**, simple to machine, and thanks to its favourable flexural strength, **highly impact resistant**.

Built to last

With an **exceptionally long lifespan**, our panels often outlast the environments they're built for. We understand durability is key to performance, but it's more than that – the lifespan of our TopLab® products ensures a **reduced impact on our environment**, as fewer replacements are needed. Durability is just one of the ways Trespa® is committed to sustainability, and it's backed by our **10 year product warranty**.

The Trespa Standard

Trespa® is committed to **delivering transparent, fact-based communication** that is grounded in evidence, verified by a third party.

Our dedication to honesty in environmental reporting is vital to setting the new standard to empower informed decisions in our industry.

Visit [Trespa.info](https://www.trespa.info) for environmental product declarations and certifications pertaining to sustainable building impact.

Healthier air quality

Trespa® TopLab®^{BASE} has achieved **GREENGUARD Gold Certification** for low chemical emissions for healthier indoor environments, giving you the assurance that VOCs will have no harmful impact on your air quality.

Let's change how we build, together

By combining high quality raw materials with our innovative technology, we can **contain CO₂ within our product for the lifespan of the panel.**

Our panels are manufactured with resins and wood-fibres, enabling the storage of carbon within the wood-fibres. Innovative technology ensures the product is very durable, and carbon is stored longer.

With our **Trespa Second Life programme**, we can further extend that lifespan, keeping emissions contained long past the point of the material's initial purpose.

A reliable partner

For over 60 years, Trespa® has been a pioneer in the development of high-performing architectural materials. Trespa® TopLab® interior panels are the result of decades of research and design innovation, and our commitment to redefining boundaries in the pursuit of excellence through continuous product improvement.

CERTIFIED PERFORMANCE

Crafted to perform in the most demanding interior environments, Trespa® TopLab® offers reliability and assurance, with certified performance tested to international standards. For laboratory environments, Trespa® TopLab®^{BASE} is tested for compliance to SEFA 8 criteria.

Visit [Trespa.info](https://trespa.info) for a full range of certifications and available testing documentation.

GREEN BUILDING PRACTICES

Trespa® TopLab® products support green building practices and may contribute toward achieving LEED, BREEAM, and other sustainable building label certifications. All TopLab® products have achieved GREENGUARD Gold Certification for indoor air quality.

Trespa® TopLab® may be available as part of the Programme for the Endorsement of Forest Certification™ (PEFC™) or Forestry Stewardship Council™ (FSC™) certification upon request, for restricted quantities and jurisdictions.

Visit [Trespa.info](https://trespa.info) for product specific EPDs (Environmental Product Declarations), HPDs (Health Product Declarations), and other sustainability certifications.

SUBJECT MATTER EXPERTISE

Trespa International B.V. is a member of SEFA (Scientific Equipment and Furniture Association), EGNATON (European Association for Sustainable Laboratories) and VIP3000 (Association for Cleanrooms and Pharmaceutical Construction).

TECHNICAL & DESIGN SUPPORT

It's never been easier to specify Trespa®, and our team is here to assist every step of the way. With in-house technical expertise and design support, we're here to bring your vision to life.

Visit [Trespa.com](https://trespa.com) to find a representative in your region – we'd love to hear from you.

DISCLAIMER

GENERAL

These terms apply to the use of this document and such use automatically means that the other party agrees to these terms. The information provided by Trespa International B.V. ("Trespa") in this document is solely indicative. Trespa is unable to warrant the accuracy and completeness of this information. Trespa may change the information included in this document at any time and without further notice. Trespa's customers and third parties must ascertain that they have the most recent document (for the most recent version, please consult: www.trespa.com). No rights can be derived from the information provided; the use of the information is at the other party's risk and responsibility. Trespa does not warrant that the information in this document is suitable for the purpose for which it is consulted by the other party. This document does not contain any design, structural calculation, estimate or other warranty or representation that customers and third parties may rely on. This document does not guarantee any properties of Trespa products. Colours used in Trespa's communications (including but not limited to printed matter) and in samples of Trespa's products may differ from the colours of the Trespa products to be supplied. Samples are not intended for use in product tests and are not representative of characteristics of the Trespa

products. Trespa's products and samples are produced within the specified colour tolerances and the colours (of production batches) may differ, even if the same colour is used. The viewing angle also influences the colour perception. Metallic panels feature a surface whose colour appears to change based on the direction from which it is viewed. The specified colour stability and colour specifications relate only to the decorative surface of the Trespa products, not to the core material and samples of the Trespa products. Trespa products are delivered ex-works with straight, sawn sides. Customers and third parties must have a professional adviser inform them about (the suitability of) the Trespa products for all desired applications and about applicable laws and regulations. Trespa does not warrant the above. The most recent version of the current delivery programme and the Material Properties Datasheet can be found at www.trespa.info. Only the information in the most recent and valid Material Properties Datasheet should be used to select and provide advice regarding Trespa products. Trespa reserves the right to change (the specifications for) its products without prior notice.

LIABILITY

Trespa is not liable (neither contractual nor non-contractual) for any damage arising from or

related to the use of this document, except if and to the extent that such damage is the result of wilful misconduct or gross negligence on the part of Trespa and/or its management. The limitation of liability applies to all parties affiliated with Trespa, including but not limited to its officers, directors, employees, affiliated enterprises, suppliers, distributors, agents, and representatives.

GENERAL CONDITIONS

All oral and written statements, offers, quotations, sales, supplies, deliveries and/or agreements and all related activities of Trespa are governed by the Trespa General Terms and Conditions of Sale (Algemene verkoopvoorwaarden Trespa International B.V.) filed with the Chamber of Commerce and Industry for Noord- en Midden-Limburg in Venlo (NL) on May 9th, 2023 under number 24270677, which can be found on and downloaded from the Trespa website, www.trespa.com/documentation. All oral and written statements, offers, quotations, sales, supplies, deliveries and/or agreements and all related work of Trespa North America, Ltd. governed by the Trespa North America General Terms and Conditions of Sale, which can be found on and downloaded from the Trespa website, www.trespa.com/documentation. A copy of these general conditions of sale will be provided free of

charge on request. All general terms and conditions other than the conditions mentioned above are dismissed and do not apply, regardless of whether such terms and conditions are referred to on requests for offers, offer confirmations, stationery and/or other documents of the other party, even if Trespa does not expressly object to such terms and conditions.

INTELLECTUAL PROPERTY

All intellectual property rights and other rights regarding the content of this document (including logos, text and photographs) are owned by Trespa and/or its licensors. Any use of the content of this document, including distribution, reproduction, disclosure, storage in an automated data file or the dispatch of such a file without Trespa's prior written consent is explicitly prohibited. © Trespa, Meteon, Pura, Pura NFC, Athlon, Izeon, TopLab, TopLab^{PLUS}, TopLab^{PLUS} ALIEN, TopLab^{ECO-FIBRE}, TopLab^{VERTICAL}, TopLab^{BASE}, Trespa Essentials and Mystic Metallics, Virtuo, Volkern are registered trademarks of Trespa.
